WHEREAS, the installation of a diffuser on the ocean outfall is necessary to comply with the NPDES permit and to ensure long term compliance with the Guam Water Quality Standards; and

WHEREAS, in January 2017, GWA procured the services of a consulting engineering team (Brown and Caldwell) to provide Project Management / Construction Management (PM/CM) Services for the Office of Economic Adjustment “Guam Water and Wastewater Infrastructure Improvements” via Resolution 15-FY2017 of which design of the Outfall Diffuser is a component; and

WHEREAS, Bids were due again on September 13, 2018 with only one bid received from Healy Tibbitts Builders, Inc. in the amount of $9,396,000.00; and

WHEREAS, the Healy Tibbitts Builders, Inc. bid still far exceeded the funds available and was rejected on June 17, 2019 pursuant to 2 GAR §3115(d)(2)(iv) (See Exhibit B – Rejection Letter 2); and

WHEREAS, an assessment and determination was made in accordance with 5 GCA § 5214 and 2 GAR § 3112 that only one contractor is available to perform the specialized work necessary to complete the Outfall Effluent Diffuser Installation Project in a timely and
professional manner and it is therefore determined to proceed with a Sole Source Procurement (See EXHIBIT C – Sole Source Determination); and

WHEREAS, GWA Management proceeded to work with Healy Tibbetts on Value Engineering/cost saving measures to arrive at an acceptable scope and budget for the project and finds the Healy Tibbetts Builders, Inc. final negotiated price of Seven Million Seventy-Seven Thousand Six Hundred Dollars ($7,077,600.00) to be acceptable (See EXHIBIT D – Price Proposal); and

Hafa Adai Mr. Heltzel:

Thank you for submitting your bid of February 23, 2018. The Guam Waterworks Authority (GWA) regrets to inform you that we must reject your bid proposal pursuant to 2 GAR §3115(d)(2)(iv) because the total bid amount exceeded the funds available and it would not be appropriate to adjust the bid to come within available funds. IFB-08-ENG-2018 Outfall Effluent Diffuser Installation Project for Upgrade of the Northern District Wastewater Treatment Plant

Submitted by: Miguel C. Bordallo P.E., General Manager

This memo shall provide the independent assessment and determination to meet the requirements set forth in 5 GCA § 5214 and 2 GAR § 3112 that only one contractor is available to perform the specialized work necessary to complete the above-mentioned project in a timely and professional manner.

The procurement for this project was first let on February 23rd, 2018 and there was only one bidder at that time. That bid was over 4 times the engineer’s estimate. The project scope, methods and approved materials were modified by the engineering team in hopes of lowering the project cost and broaden the bidder field. The project was let for a second time on September 13th, 2018. Although several more potential bidders picked up procurement packets and expressed interest, only one bidder submitted a packet. It was the same bidder on both procurements, Healy-Tibbetts Builders, Inc.

This project has very critical timing aspects to it - both environmental and regulatory. As a result, GWA cannot afford to put this project out to bid a third time. There are no other bidders suitable or acceptable to meet the needs of the Authority. GWA will negotiate in good faith with the sole bidder to ensure the project is built at the best possible price and in the best interest of the ratepayers.

A record of this procurement will be memorialized and provided to the Speaker of the Guam Legislature.
