GPA RESOLUTION NO. FY2024-11

RELATIVE TO APPROVAL FOR RELOCATION OF YIGO DIESELS

WHEREAS, generation capacity shortfall due to Typhoon damage and units requiring repair prompted GPA to solicit for 40 MW (Megawatts) of temporary power to bridge generation capacity support until the delayed commissioning of the Ukudu Power Plant by late 2025; and

WHEREAS, the Yigo Diesel site was determined to be the optimal site for permitting and commissioning the Temporary Power within the required 100 days; and

WHEREAS, the existing Yigo Diesel units remain an essential part of GPA's generation capacity until the commissioning and operation of the Ukudu Power Plant; and

WHEREAS, the Temporary Power will displace 39 existing Yigo Diesel units which have significantly declined in operating capacity due to required major overhauls or replacement, which has been held up by procurement protest; and

WHEREAS, GPA intends to repair or replace 20 of the 39 1-MW Yigo Diesel units to provide critical generation capacity until the commissioning of the Ukudu Power Plant; and

WHEREAS, GPA owns property adjacent to the Tenjo Vista Power Plant which has access to transmission line which can accommodate an additional 20 MW of power to export to the grid, most especially to serve the southern villages and Naval Station Guam; and

WHEREAS, the repaired or new units will be temporarily located and operated on adjacent property to the Tenjo Vista Power Plant; and

1 **WHEREAS**, GPA estimates the total cost for this project to be over \$1.5M based on
