GPA has structured both its Manual and Electronic IFB submittal procedures to ensure non-repudiation of

the submitted proposals. In this IFB, non-repudiation is strong and substantial evidence of the identity of

the sender and owner of the proposal and of proposal's integrity in so far as it being unaltered from its

original sent state, sufficient to prevent a party from successfully denying the origin, submission or Supply

of the proposal and the integrity of its contents. Non-repudiation applies to both parties to this IFB transaction. It binds the sender as well as precludes the recipient from denying the exchange of information and material upon the receipt of secure acknowledgement from the recipient.

GPA and the BIDDER shall manage the Manual IFB Submittal Process to address non-repudiation, security and confidentiality inclusive but not limited to the following:

- Manually executed signatures and printed media documents;
- Chain of custody receipts;
- Manual time-stamps for receipt of IFB materials;
- Machine generated Fax confirmation reports;
- Secure notification e-mail;
- Physical Supply of printed material proposals;
- Physically secured area storage of IFB materials.

2.10.4. Signature of Bidder

A duly authorized person must sign the BIDDER's proposals. All names shall be typed or printed below the signature. A proposal submitted by a corporation must bear the seal of the corporation, be attested to by its Secretary, and be accompanied by necessary Power-of-Attorney documentation.

Associated companies or joint ventures shall jointly designate one Power-of-Attorney person authorized to obligate all the companies of the association or joint venture. A proposal submitted by a joint venture must be accompanied by the document of formation of the joint venture, duly registered and authenticated by a Notary Public, in which is defined precisely the conditions under which it will function, its period of duration, the persons authorized to represent and obligate it, the participation of the several firms forming the joint venture, the principal member of the joint venture, and address for correspondence for the joint venture. BIDDERs are advised that the joint venture agreement must include a clause stating that the members of the joint venture are severally and jointly bound.

Wherever a legal signature is required, receipt of an electronic signature will suffice to meet the submittal deadline for those electing to use the Electronic Proposal Submittal process. The original signed documents must be reproduced electronically and be placed in the submitted compressed archive file. However, the original documents must be sent to GPA via post or courier and post-marked no later than the bid-opening date. In addition, GPA will accept an electronic scanned copy of Notarized documents with the compressed

archive submitted will suffice to meet the proposal deadline. However, the original documents must be sent to GPA via post or courier and post-marked no later than the bid-opening date.

2.10.5. Cut-Off Date for Receipt of Proposals

The Technical and Price Proposals have to be submitted on or before the GPA Cut-off Date for Receipt of Proposals specified in Table 1 (Bid Milestones).

Price Proposals shall be returned, unopened, to the BIDDERs whose Technical Proposals are deemed Not Acceptable.

2.10.6. Receipt and Handling of Proposals

Upon receipt, each Proposal submittal package will be time-stamped. The only acceptable evidence to establish the time of receipt at the GPA is the date/time stamp of the Guam Power Authority's procurement office on the wrapper or other documentary evidence of receipt maintained by GPA. Proposals will be stored in a secure place until the date and time set for proposal opening.

GPA procurement personnel and the BIDDERs must ensure that the outside of the sealed package is stamped received using the GPA Procurement Stamp. In addition, GPA procurement personnel must officially log the time and date that the BIDDER's sealed proposal package has been received. GPA makes no warranties on these submittal processes, manual or electronic.

2.10.7. Proposal Changes During Bid Process

Changes may be made by the BIDDERs to the Technical Proposal and Price Proposal prior to the Cut-off Date, and the proposals including corrections or changes made must be re-submitted on or before the Cut-off Date.

2.11. STEP ONE PROCEDURES

2.11.1. Evaluation of Technical Proposals

After the Close of the Proposal submission date, the GPA Evaluation Committee shall evaluate the Technical Proposals. Each of the responses and supporting information shall be evaluated and scored, in accordance with the scoring methodology described in the Qualitative Proposal Scoring Worksheet.

2.11.2 Scoring of Technical Proposals

GPA will use the score from the Qualitative Scoring Workbook to evaluate the contents of Proposals and categorize the Proposals as:

- a. Acceptable;
- b. Potentially Acceptable, that is reasonable susceptible of being made acceptable; or
- c. Unacceptable or Not Acceptable. GPA shall record in writing the basis for finding an offer unacceptable and make it part of the procurement file.

GPA shall evaluate and score each BIDDER using the methodology as described in <u>Section 4</u> of this volume. At the conclusion of the evaluation, GPA shall establish a Qualified Bidders List (QBL), and the Procurement Officer or his designee may initiate Step Two if there are sufficient acceptable Technical (Unpriced) Proposals to assure effective price competition in the second phase without technical discussions. If the Procurement Officer or his designee finds that such is not the case, the Procurement Officer shall issue an amendment to this Invitation for Bid or engage in technical discussions with BIDDERs as set forth below.

2.11.3. Discussions of Proposals

The Procurement Officer or his designee may conduct discussions with any bidder who submits acceptable or potentially acceptable Technical Offer. During the course of such discussions, the Procurement Officer or his designee shall not disclose any information derived from one Unpriced Technical Proposal to any other BIDDER.

GPA may conduct discussions or request for additional information or documentation with any BIDDER to determine such BIDDER's qualifications for further consideration and explore with the BIDDER the scope and nature of the required services, method of performance and the relative utility of alternative methods of approach. BIDDERs are required to provide the responses within the time period specified at that time by GPA. If GPA does not receive any response by the deadline specified, GPA shall consider the lack of a response as the BIDDER's response. During the course of such discussions, the Procurement Officer shall not disclose any information derived from a technical offer to any other BIDDER.

Each BIDDER is requested not to contact GPA on any matter relating to its proposal, from the time of submission of the Proposals to the time the contract is awarded, except to respond to inquiries by GPA.

2.11.4. Notice of Unacceptable Proposal

A notice of unacceptability will be forwarded to the BIDDER upon completion of the Technical Proposal evaluation and final determination of unacceptability. When the Procurement Officer or his designee determines a BIDDER's Technical Proposal to be unacceptable, such BIDDER shall not be afforded an additional opportunity to supplement its technical offer.

2.12. STEP TWO PROCEDURES

Upon completion of evaluation of Technical Proposals, qualified bidders will be notified and GPA will proceed with Step Two of the multi-step bid. GPA shall return the Price Proposal Packages submitted by BIDDERs whose Technical Proposals did not qualify for Step Two.

2.12.1. Opening of Price Proposals

Each selected BIDDER from the Qualified Bidders list will be notified of the Price Proposal Opening date. BIDDERs may be present during the Bid Opening.

2.12.2. Proposal Changes During Bid Process

No changes may be made between Notification of Acceptable Proposal and Price Proposal Opening date.

2.12.3. Proposal Validity

All price/cost data submitted with the BIDDERs' proposals shall remain firm and open for acceptance for a period of not less than six (6) months after the Price Proposal Opening Date and thereafter shall be subject to renewal by mutual agreement between the BIDDER and GPA. BIDDER shall state the actual date of expiration in their proposal.

2.12.4. Preliminary Examination of Price Proposal

GPA will examine the Price Proposal on the opening date to determine whether they are complete, whether any computational errors have been made, whether required sureties have been furnished, whether the documents have been properly signed, and whether the Priced Offers are generally in order.

Arithmetical errors will be rectified on the following basis:

- If there is discrepancy between the unit price and the total price, including any discounts, that is obtained by multiplying the unit priced and quantity, the unit price shall prevail and the total price shall be corrected.
- If the Bidder does not accept the correction of the error, its bid will be rejected. If there is a discrepancy between words and figures, the amount in words will prevail.

2.12.5. Evaluation Criteria and Comparison of Priced Offers

GPA will evaluate and compare the Priced Offers for Bidder's Technical Proposals that were determined during Step One to be responsive to the tender document requirements. The Scoring Mechanism is further explained in <u>Section 4</u>.

2.13. Award of Contract

The contract will be awarded to the BIDDER evaluated as being qualified and with the best-priced proposal for the THREE (3) year contract base period.

The successful BIDDER will be notified by GPA through official written correspondence of the intent to award the contract (Notice of Intent to Award). The written correspondence may be sent by GPA either via official letter, e-mail and fax.

The BIDDER will be required to send to Guam, within fourteen (14) days of the date of receipt of such notice, a representative or representatives with proper Power-of-Attorney for the purpose of executing a contract with such alterations or additions thereto as may be required to adopt such contract to the circumstances of the proposal. 4. PROPOSAL SCORING MECHANISM

4.1. Overview

GPA will use the Proposal Scoring Mechanism described in this Section of the Invitation for Bid (IFB) to qualify BIDDERs for the participation in the final bid stage. The Proposal Scoring Mechanism provides the BIDDERs the opportunity to highlight their qualifications to bid in terms of their resources, skills, operating philosophy and commitments to perform specific tasks and originality. The IFB proposal evaluation shall be based on such specifications and based on the relative ranking of each BIDDER's qualifications.

4.2. Qualitative Proposal Evaluation

The qualitative proposal scoring is designed to assess the quality of the BIDDER's resources, skills, comprehensiveness and responses to specific questions or requirements. GPA may elect to have up to five (5) evaluators for this IFB. Each evaluator shall assess and review the Bidder's Technical Proposal documents. Each GPA evaluator shall score each BIDDER separately under a point system to determine the acceptability of each Proposal. The majority of the determinations of GPA evaluators shall prevail in the decision to Qualify or not Qualify a BIDDER for Step 2 — Price Proposal.

The instructions for filling out the Qualitative Proposal Scoring Workbook are listed in the **Proposal Instructions** tab in the Workbook. The BIDDER must complete all entries in the **Part 1- Qual Support References** tab of the Workbook. The tab, **CONTRACTOR Qualifications Checklist** is automatically populated once BIDDER completes all entries in **Part 1- Qual Support References**. Each GPA evaluator will be provided a copy of Part 1 – Qual Support References as well as the BIDDER's technical proposal materials. Evaluators shall review and evaluate BIDDER responses in **Part 1- Qual Support References** worksheet tab, and fill out the **Part 2 – Qual Eval Scoresheet** tab using the following steps:

 Each evaluator shall review BIDDER's response to each question on the CONTRACTOR Checklist Items. The Evaluator shall be guided by information provided by the bidder regarding location of responses to each question in Part 1 – Qual Support References tab. **Volume I: Commercial Terms and Conditions**

2) In Part 2 - Qual Eval Scoresheet tab, Evaluator shall assign a Raw Rating Score for each

BIDDER's response to each question. The Evaluator shall be guided by the Checklist Weight

and Proposal Scoring Information provided in the Proposal Scoring Information tab.

3) Each evaluator shall determine BIDDER's weighted average raw score using pre-specified

weights for each question. Part 2 - Qual Eval Scoresheet tab has been formatted to

automatically populate the Evaluated CONTRACTOR Qualifications Score.

The evaluators will use the supporting information on Price Proposal Worksheet. The Total Qualitative

Points for a 100% Score is specified in the Proposal Scoring Information tab and CONTRACTOR

Qualifications Checklist tab. Each GPA evaluator will analyze the contents of the Proposals and categorize

the Proposals as:

Acceptable: Score ≥ 80%

o Potentially Acceptable, that is reasonably susceptible of being made Acceptable: 80%> Score

≥75%

Unacceptable: Score < 75%.

A percent score of less than 75% indicates that a GPA evaluator has determined that the BIDDER has not

supplied sufficient evidence of qualifications and should not be allowed to participate in Step 2 - Price

Proposal.

After each GPA evaluator has completed the evaluation and scoring of BIDDERS, GPA shall complete the

Table below. The Procurement Officer will enter for each GPA evaluator and BIDDER one and only one of

the following in the appropriate table cell below:

Acceptable

Potentially Acceptable

Unacceptable.

The Procurement Officer or his designee may initiate Step Two if there are sufficient acceptable Unpriced

Technical Proposals to assure effective price competition in the second phase without technical discussions.

If the majority of the GPA evaluators rate the BIDDER as Acceptable , that BIDDER is determined to be

Qualified and will be allowed to participate in Step 2– Price Proposal.

If the Procurement Officer or his designee finds that such is not the case, the Procurement Officer or his

designee shall issue an amendment to this Invitation for Bid or engage in technical discussions with BIDDERs

Volume I: Commercial Terms and Conditions

who are rated by a majority of the GPA evaluators as Acceptable or Potentially Acceptable. During the course of such discussions, the Procurement Officer or his designee shall not disclose any information derived from one Technical Proposal to any other BIDDER.

Once discussions are begun, any BIDDER who has been notified that its Offer has been finally found acceptable may submit supplemental information amending its Technical Proposal at any time. Such submission may be made at the request of the Procurement Officer or upon the BIDDER's own initiative.

BIDDERs who are rated by the majority of the GPA evaluators as Unacceptable is determined to be Not Qualified and will not be allowed to participate in Step 2– Price Proposal. The Procurement Officer shall record in writing the basis for finding a Bidder Not Qualified and make it part of the procurement file.

If any other quality parameter (besides the ones stated in) exceeds the specifications' limits, then a penalty will be agreed between **GPA** and **CONTRACTOR**.

It is expressly agreed that the present penalty clauses shall be imposed regardless of whether damages were or not suffered by the GPA due to the delay in delivering the fuel and fuel quality outside contractual specifications, and that the GPA reserves the right to claim cumulatively both the amount of the penalty clauses and indemnification for every direct damage suffered by him due to CONTRACTOR non-contractual actions or omissions. If during the period of this contract the GPA is forced to purchase fuel oil in order to maintain the GPA's Power Stations on full commercial load as a result of failure on the part of the CONTRACTOR to supply and/or deliver fuel oil in accordance with the terms of this contract (save for events of Force Majeure) any additional cost borne by the GPA over and above the price provided for in this Contract, CONTRACTOR will be liable to refund GPA either by payment of the CONTRACTOR or by way of reduction from GPA debts to the CONTRACTOR or deduction from the CONTRACTOR's Good Performance Bond of the Contract, or partially from both.

GPA reserves the right to retain the amount of the penalty clauses from his debts to the **CONTRACTOR** or from the Good Performance Bond of the Contract, or partially from both.

SECTION 30. DEFAULT

If the PARTY refuses or fails to perform any of their obligations under this agreement, non-breaching PARTY shall notify the PARTY either by e-mail or in writing within thirty (30) days of the breach. If the PARTY does not remedy the breach within thirty (30) days after the date of notification, non-breaching PARTY may by giving notice to the other PARTY terminate the Agreement in whole or suspend taking of delivery under the Contract.

In the event of partial termination or suspension under this provision, **GPA** reserves the right to procure fuel supply from another source upon notification to CONTRACTOR either by e-mail or in writing. Fuel to be procured shall be at the prevailing market price at the time of partial termination or suspension.

The CONTRACTOR shall be liable for the difference between the contract price and the prevailing market price at the time of termination.

SECTION 31. ATTORNEYS FEES

Should a default by either party result in litigation, the successful party shall be entitled to recover its reasonable attorney's fees from the defaulting party.

SECTION 32. TERMINATION FOR CONVENIENCE

(a) **Termination**.

The delivery of fuel oil supply under this Contract may be terminated by **GPA** in accordance with this clause in whole, or from time to time in part.

Any such termination shall be effected by delivery to the **CONTRACTOR** of a written Notice of Termination specifying the extent to which supply of fuel oil under the Contract is terminated.

In the case of termination of this Contract, **GPA** shall reimburse the CONTRACTOR of all the expenses related to the period of the Performance Bond that were not used.

(b) **CONTRACTOR's Obligations.**

The **CONTRACTOR** shall incur no further obligations in connection with the terminated fuel oil supply delivery and on the date set in the Notice of Termination the **CONTRACTOR** will stop delivery of fuel oil to the extent specified. The **CONTRACTOR** shall also terminate outstanding orders and Contracts, if any, as they relate to the terminated Contract for fuel oil supply. The **CONTRACTOR** shall settle the liabilities and claims arising out of the termination of orders and Contracts, if any, connected with the terminated fuel oil supply delivery. **GPA** may direct the **CONTRACTOR** to assign the Contractor's right, title and interest under the terminated orders or Contracts to **GPA**. The **CONTRACTOR** must still deliver fuel oil supply not terminated by the Notice of Termination and may incur obligations as are necessary to do so.

(c) Right to Supplies.

GPA may require the **CONTRACTOR** to transfer title of fuel oil cargo in transit to Guam at the time of receipt by Contractor of **GPA**'s Notice of Termination.

(d) Compensation.

- (1) The **CONTRACTOR** shall submit a termination claim specifying the amounts due because of the termination for convenience. If the **CONTRACTOR** fails to file a termination claim within ONE (1) year from effective date of termination, **GPA** may pay the **CONTRACTOR**, if at all, an amount set in accordance with subparagraph (3) of this paragraph.
- (2) GPA and the CONTRACTOR may agree to a settlement provided the CONTRACTOR has filed a termination claim supported by cost or pricing data to the extent required by Section 3-403 (Cost or Pricing Data) of the Guam Procurement Regulations and that the settlement does not exceed the total Contract price plus settlement costs reduced by payments previously made by GPA, the proceeds of any sales of supplies and manufacturing materials under the Guam Uniform Commercial Code, and the Contract price of the fuel oil supply not terminated.
- (3) Absent complete agreement under subparagraph (1) of this paragraph, **GPA** may pay the **CONTRACTOR** the following amounts, provided payments agreed to under subparagraph (2) shall not duplicate payments under this subparagraph:

- (i) Fuel oil Contract prices for supplies or services accepted under the Contract by **GPA**;
- (ii) Costs incurred in preparing to perform and performing the terminated portion of the delivery of fuel oil plus a fair and reasonable profit on such portion of the delivery (such profit shall not include anticipatory profit or consequential damages) less amounts paid or to be paid for accepted fuel oil supplies or services; provided, however, that if it appears that the **CONTRACTOR** would have sustained a loss if the entire Contract would have been completed, no profit shall be allowed or included and the amount of compensation shall be reduced to reflect the anticipated rate of loss;
- (iii) Costs of settling and paying claims arising out of the termination of Contracts or orders pursuant to paragraph (2) of this clause. These costs must not include costs paid in accordance with subparagraph (3)(ii) of this paragraph;
- (iv) The reasonable settlement costs of the **CONTRACTOR** including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the Contract for the termination and settlement of Contracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of property allocable to the terminated portion of this Contract. The total sum to be paid the **CONTRACTOR** under this subparagraph shall not exceed the total Contract price plus the reasonable settlement costs of the **CONTRACTOR** reduced by the amount of payments otherwise made, the proceeds of any sales of supplies and manufacturing materials under the Uniform Commercial Code.

SECTION 33. REMEDIES CUMMULATIVE

Each and all remedies available to a party in the event of the other party's failure to comply timely with any or all the terms and conditions of the Contract may be exercised independently or in combination (such rights being nonexclusive one with the other). The remedies set forth in the Contract are in addition to, and not in lieu of, all of the remedies available at law or in equity.

SECTION 34. COVENANT AGAINST CONTIGENT FEES

The **CONTRACTOR** warrants no person or selling agency has been employed or retained to solicit or

secure the Contract upon agreement or understanding for a commission, percentage, brokerage, or

contingent fee, excepting bona fide employees or bona fide established commercial or selling agency

maintained by the **CONTRACTOR** for the purpose of securing business. For breach or violation of this

warranty, GPA shall have the right to annul the Contract without liability or, in its discretion, to

deduct from the Contract price or consideration, or otherwise recover, the full amount of such

commission, percentage, brokerage, or contingent fee.

the other shall be deemed sufficiently given if in writing and enclosed in an envelope properly

stamped and addressed to the party at the address set forth in this section, and deposited in the

United States mail. Either party may change its address by giving FIFTEEN (15) days prior written

notice to the other party. Such address until further notice shall be:
